A Word to Republicans.

The hope of the party lies in the expansion of a stalwart Republican press. The Republican who reads or otherwise helps to support a Democratic paper to the exclusion of one of his own party newspapers is untrue to the Republican cause.

THE LEDGER...

is the largest daily paper printed in Maysville—count the columns and measure their length.

It gives you more reading matter than any other.

It is sold at the same price as any other Maysville paper—one cent a copy or 25 cents a month, delivered by carrier or sent by mail.

If you are looking for the most for your money, you can get it in THE LEDGER.

New is the time to subscribe—suppose you give it a month's trial.

Circulation More Than 1,000 Daily.

So GREAT has the evil of unemployed labor become in Great Britain that the President of the Local Government Board has issued a circular to the authorities, whose duty it

is to provide for the dependent poor, calling attention to the

number of the unemployed, and to the steps which may be taken for their relief beyond the ordinary machinery of the poor law.

The local authorities are advised to provide work which will not involve the stigma of pauperism, which can be performed by all able-bodied laborers, which does not compete with the work of other laborers, and which is not likely to interfere with the assumption of regular employment.

The persons to be employed are only to be engaged on the recommendation of the guardians of the poor, and the wages are to be something less than the usual rate, in order that those employed shall have the strongest inducement to return to their ordinary occupations as soon as possible.

The action taken by the central authorities indicates a prevalence of unusual distress in Great Britain. It also indicates a considerable advance from the period when poverty, in that country, was regarded and punished as a crime. The question of what to do for the unemployed is becoming every day more pressing in England. There are many thousands without work in London, while most of them suffer in secrecy and conceal the privations they endure, others are holding meetings and being used as tools of Socialist agitators. It should be hardly necessary to say that a large element of unemployed and discontented people is a most serious menace to public security and stability, and this is a fact which the advocates of the introduction of British free-trade in the United States would do well to remember.

In his recent message to Congress President Harrison sounded a note of warning in relation to claims against the United States, amounting to about \$100,000,000, for losses incurred during the war. These claims are nearly all from the South, and are presented in behalf of parties who allege loyalty to the Union cause. It is a sinister as well as a significant fact that the Democratic and Mugwump organs, which devote columns to assailing the idea that pensions ought to be paid to Union veterans, have not a word to utter against this enormous gangster threatening the Treasury and the revenue.

THOMAS DOLAN, a woolen manufacturer, in a speech in Philadelphia the other night, said that free wool would only lessen the cost of a \$75 suit of clothes by the amount of 99 cents. What, workmen wear \$75 suits of clothes?

STEAMBOAT MATTERS.

The Emerson Piano.

These instruments have enjoyed a high reputation for more than forty years. Are Brilliant and Musical in Tone, and afford a most beautiful accompaniment to vocal music—the tone having the rare sympathetic quality which blends admirably with the human voice. They are durable, being constructed of the Best Materials, by the Most Skillful Workmen. They have earned an especial reputation for Keeping in Tune, and also for retaining in a most remarkable degree their original fullness of tone—never growing thin or wiry with age.

The Emerson Upright Pianos especially have obtained a remarkable success during the past few years, and have invariably received a high award wherever exhibited. In all the essential qualities of a First-class Instrument they are second to no piano manufactured in the country.
